Mahone Will not Eun for Congress

THE TIMES' correspondent to-day asked prominent Republican, who is an intimate friend of General Mahone, what truth ther was in the rumor that the General would probably be a candidate for Congress from probably be a candidate for Congress from
the Fourth Congressional District of Virginia. His reply was, that there was no
truth in the report and that General Mahone had no idea whatever of being a candidate for Congress. It is understood that the probabilities are that
the white faction of the Mahone
wing of the Republican party will not
make any nomination, but that the colored
people of the district who are triendly to
Mahone and outposed to Langston will probably put up a candidate. The names of threecolored men, one residing in Petersburg,
and the other two in Nottoway and Prince

well understood that General Mahone will

The plan of Bishop Potter to unite St. Stephen's Episcopal church, in west Fortysixth street, with the parish of the Holy Trinity, Harlem, has not yet been carried out. The vestry of St. Stephen's strenously object to any such union, on the grounds hat the Holy Trinity parish is too far up town.
